

# Shinto.

Desk System.

---

## Introduction to Shinto.

Inspired by the iconic shrines of Japan, our thoughtfully-designed Shinto Desk System assembles effortlessly, to create harmonious work spaces.

Shinto offers a large range of components designed to be easily configured in many different ways to accommodate the needs of your environment and the workstyles it will host.

Surface materials are available in a selection of VE Furniture and Laminex timbers and laminates.

Standard in white powder coated steel frame with legs including levelling glides.

## Understanding Shinto.

### Product Details

# Shinto Basic Overview

## Continued

**Basic Shinto components** consist of a Brace, Legs and Table tops.

**Series One** comes standard with a single brace, two legs and a single table top.

**Series Two** comes standard with a double brace, two legs and two table tops.

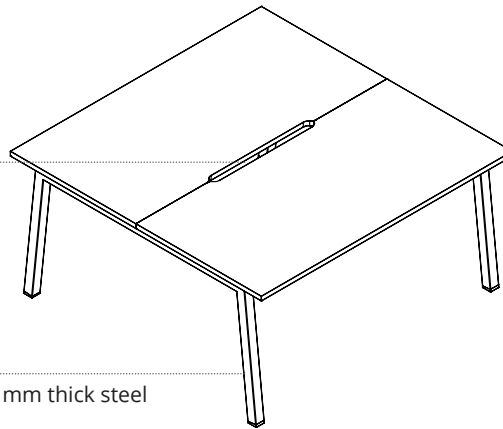

**Series Two** offers an optional screen mount with a double brace, two legs and two table tops.

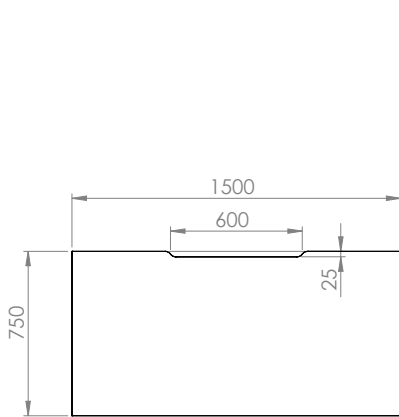

Work surface is 25 mm thick with either a raw Birchply edge or ABS edge in matching laminate colour.

Adjustable glides have a 20 mm adjustability range to compensate for uneven floors.

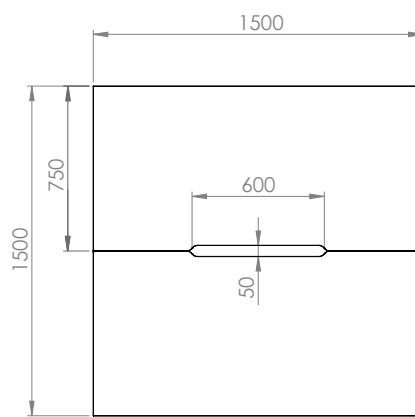

Optional 600 mm cable cutouts allow cords and monitor mounts to pass behind the table top.

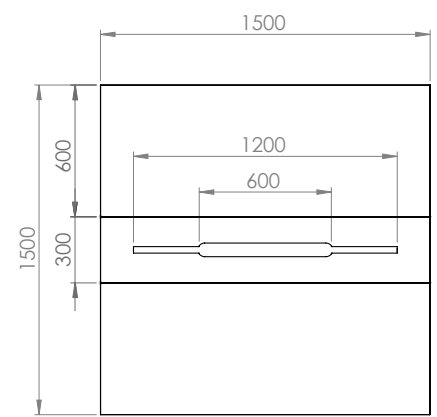

Legs and brace constructed from 50 mm thick steel standard in white powder coat.

# Shinto Basic Overview

## Series One Desk

**Series One Desks** consist of a Brace, Legs and Table tops.

**Series One Desks** can be connected unlimitedly, making it easy to expand from a desk for one to an office of one hundred.

**Note:** Power is not unlimited. Additional power feeds may be needed depending on the number of desks connected together.

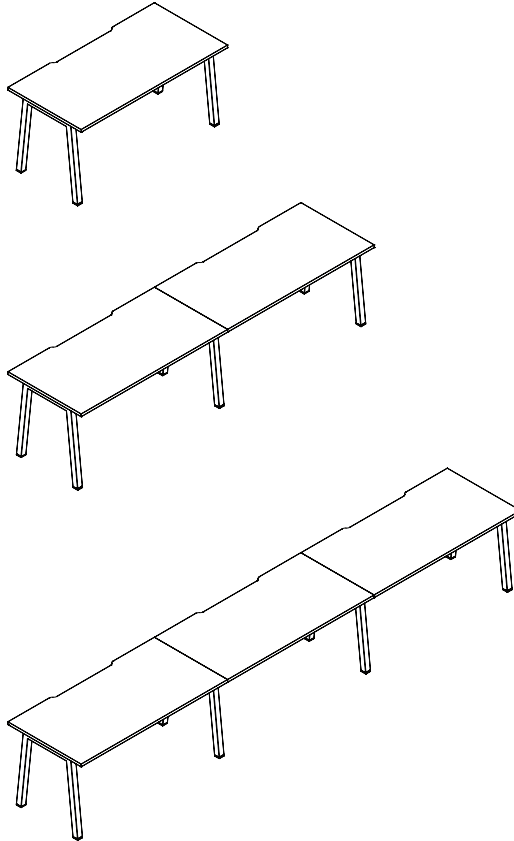

Cable trays are used to hold power supply and general cords. Each cable tray has the ability to provide extra GPO outlets below the table top.

Data port clips can be set into the cable tray and are accessed through the various cable routing openings.

**Note:** Data cables may need to be run and installed by a qualified data electrician depending on your requirements.

Optional 600 mm cable cutouts allow cords and monitor mounts to pass behind the table top.

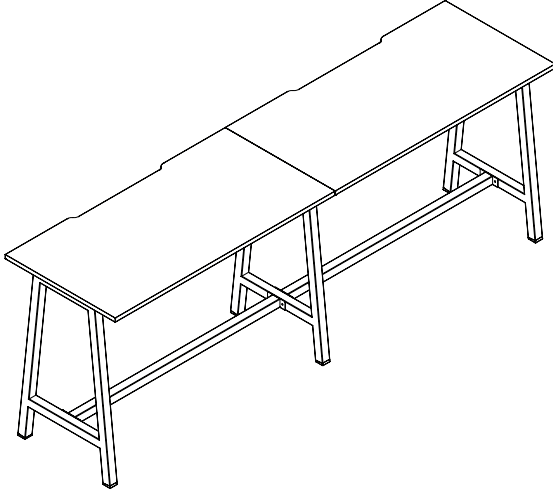

**Series One Desks** can be configured with users sitting next to or across from each other.

---

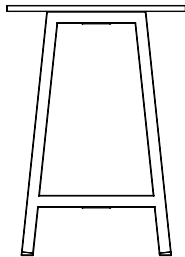

## Touchdown Space

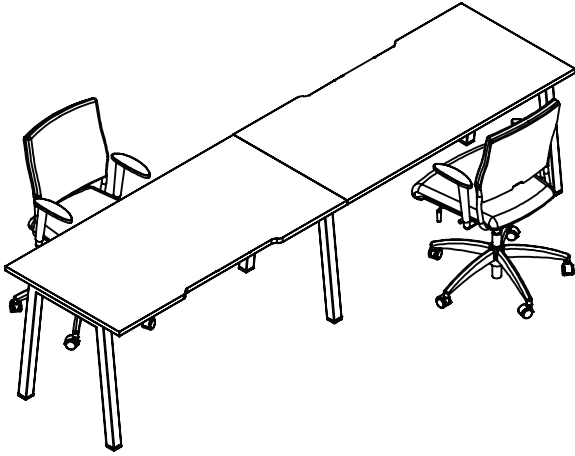

Seamless table tops create a continuous workspace with a minimal footprint perfect for creating touchdown spaces where users can drop in and set up in seconds.

The recommended power solution in this setting is contained above desk for easy access and provides two rotated GPOs and one Inline USB Fast Charge port per person.

# Shinto: Basic Overview

## Series Two Desk

**Series Two Desks** consist of a Brace, Legs and Table tops.

**Series Two Desks** can be connected unlimitedly, making it easy to expand from a desk for two to an office of two hundred.

**Note:** Power is not unlimited. Additional power feeds may be needed depending on the number of desks connected together.

Cable trays are used to hold power supply and general cords. Each cable tray has the ability to provide extra GPO outlets below the table top.

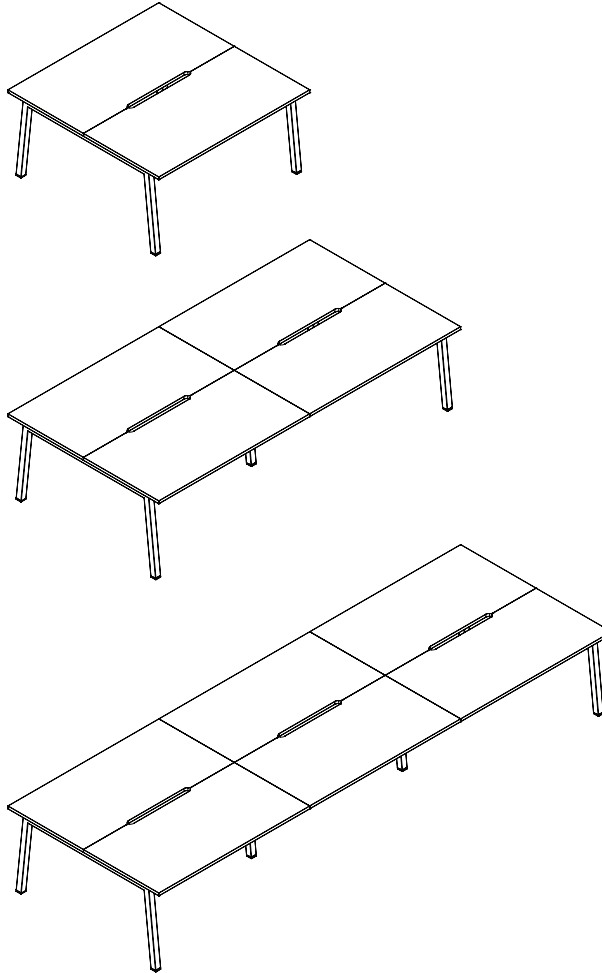

Data port clips can be set into the cable tray and are accessed through the various cable routing openings.

**Note:** Data cables may need to be run and installed by a qualified data electrician depending on your requirements.

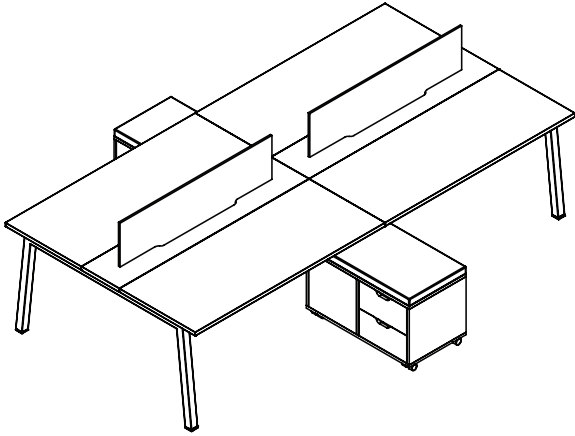

Optional 600 mm cable cutouts allow cords and monitor mounts to pass behind the table top.

**Series Two Desks** are configured with users sitting next to and across from each other.

A variety of screen types can be shared between two users when installed on a Series Two Desk with the addition of a Screen Mount Spacer.

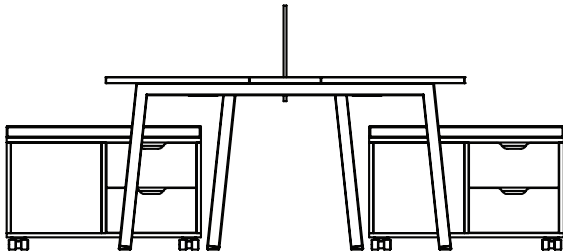

## Personal Work Space

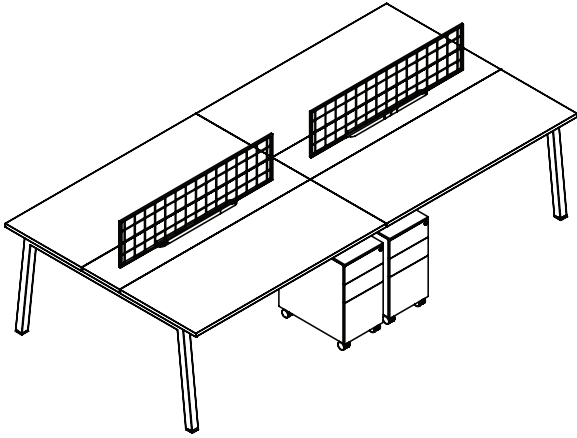

Perfect for maintaining a balance between collaboration and solo work in smaller floorplans. Shinto Personal Work Spaces include solid desk screens to offer privacy but encourage connection with the addition of Cubo Storage Bench seat.

# Shinto: Basic Overview

## Series Three Conference Tables + Work Benches

**Series Three Conference Tables and Work Benches** consist of a Brace, Legs and single, large scale Table top.

**Series Three Tables** provide a highly functional conference table or a launchpad for spontaneous collaboration and social interaction in open spaces.

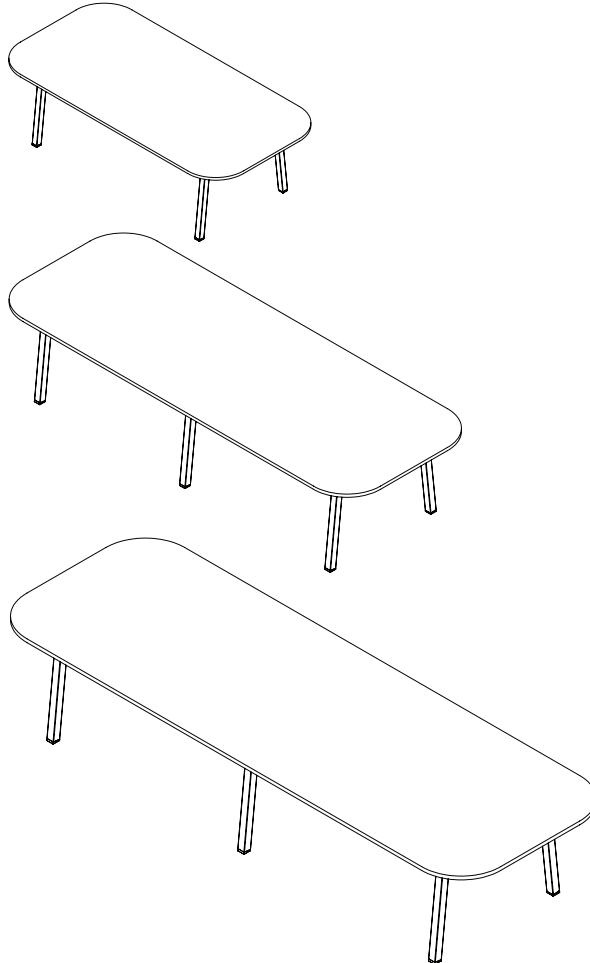

**Note:** Power is not included as standard. Various power configurations may be supplied depending on requirements.

Cable cleats are used to hold power supply and general cords.

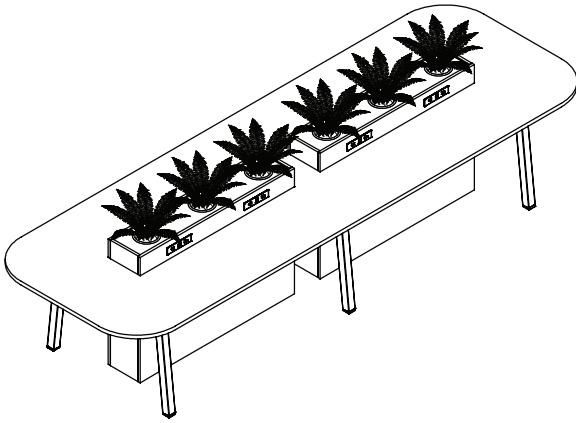

Data port clips can be set into mounted power options and are accessed through the various cable routing openings.

**Note:** Data cables may need to be run and installed by a qualified data electrician depending on your requirements.

**Series Three Tables** are available with either a seated or standing height frame option.

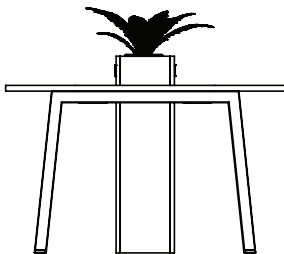

## Breakout Table

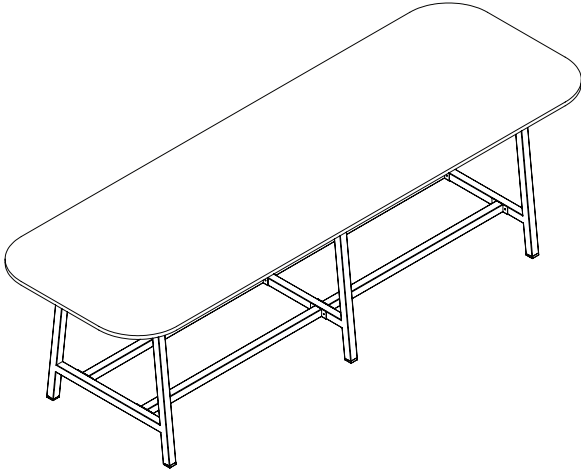

Breakout brings the energy of the outdoors to life in your space. A simple breakout workstation with inbuilt planter boxes provides users with personal power to encourage users to work away from the desk.
